NEW PRODUCT

Designed specifically for hot rods, street rods, and vintage cars! Joe Gibbs Hot Rod Oil builds on the formulation that is used by thousands of racers while adding critical additives to protect engines when they are not running.

- Higher levels of Zinc than regular passenger car oils delivers proper anti-wear protection for older style push-rods and flat-tappet engines.
- Uses the same superior camshaft wear protection chemistry found in our racing oil and the same additive technology developed for the U.S. Military for storing and shipping.
- Protects against rust and corrosion, so your engine is protected even when it's not running.

Available in 10W-30 and 15W-50

\$7.99/quart
